Registration standard: Continuing professional development (CPD) <i>Please provide your responses to any or all questions in the blank boxes below</i>
1. From your perspective how is the current CPD registration standard working?
The current CPD registration standard is working well, except for the requirement to undertake CPR training through a registered training organisation (RTO) as this increases costs yearly and causes us to undertake two trainings per year (one through the hospital/health service and one through an RTO).
2. Is the content of the draft revised registration standard helpful, clear, relevant and more workable than the current registration standard?
Yes, the requirements for CPD and CPR are relevant to podiatry practice and clear to understand.
3. Is there any content that needs to be changed or deleted in the draft revised registration standard?
The wording under approved training organisations needs to be changed from 'a hospital that provides training' to a hospital and/or health service.

4. Is there anything missing that needs to be added to the draft revised registration standard?

No

5. Do you have any other comments on the draft revised registration standard?

No

6. Do you think that that the current review period of at least every three years should be maintained or would an alternative period be appropriate e.g. five years, with the option to review earlier if the need arises?

I think the current review period is suitable.
